Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 October 2003.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on October 28, 2003 and February 22, 2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

This application is in condition for allowance except for the following formal matters:

Claims 1-8 are objected to because of the following informalities:

Claim 1, line 16: Replace "a" with --said--.

The language of Claim 5, lines 1-4 is awkward: Replace lines 1-4 with --A method of controlling a control apparatus of a storage unit, a communication port computer, a first communication port, a first queue for the control apparatus having a first communication port for conducting communication with a processor that controls a first storage device that stores a command for conducting communication with the first communication--.

Claims 2-4 and 6-8 are objected to as being dependent upon a previously objected claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of the IDS filed 10/28/03 and 2/22/05, as well as that of Ito et al., teach port communication processing but fails to teach the combination including the limitations of:

(Claim 1) "...a unit causing the second processor to implement execution of the command stored in the first queue; and a (said) unit changing data stored in the first memory while the second processor is being caused to implement execution of the command stored in the first queue";

(Claim 5) "...causing the second processor to implement execution of the command stored in the first queue; and changing data stored in the first nonvolatile memory while the second processor is being caused to implement execution of the command stored in the first queue".

Conclusion

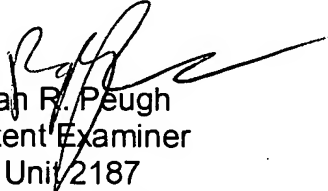

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art teaches related port processing.
